

Fourth Grade Flash

October 8, 2010

<p>ELA</p> <p>In Reading Workshop, we continued to learn how to use our Reader's Notebooks to write about books we are reading. We explored writing about what we liked or disliked about our books and what they remind us of. In Writing Workshop, we learned additional ways to write in our Writer's Notebooks.</p>	<p>MATH</p> <p>I have been so impressed with the children this week! They have become experts at rounding numbers! Ask them to tell you the rhyme we learned to help us remember. We will have our chapter 2 test next Friday 10/15.</p>
<p>SCIENCE/Health</p> <p>In Science we are learning to distinguish between series and parallel circuits. Can your child tell you the difference? We built to "Mystery Circuits" this week and will continue with other "Mystery Circuits" after the break.</p>	<p>SOCIAL STUDIES</p> <p>This week we finished our virtual tour of New York and wrote about what we learned using a paragraph with a topic sentence and supporting details. We also began using what we've learned about NY, maps and geography to create our very own maps of New York State.</p>
<p>Notes: Please remember to check for a homework award or a late assignment slip!</p> <p>Please be sure to return your field trip permission slips if you have not already done so.</p> <p>Dates: 10/11 Columbus Day – No school 10/12 Professional Development Day – No school for students</p>
